

 **LIGHT YOUR STAR** (Versione inglese)

Vers 1

When you think that you're ready leave the dressing room
go, and show great courage they're waiting for you
Wipe off your fears and your worries like the dust in your eyes
you know you can make it take them by surprise

Look, so many people they're here for you
waiting for great moments for the hero in you
Focus on what is important for the next minute or two
ready to reach for the limit and the victory is you

Light your star, light up your star in the sky
this is your magic moment, in this reality
Light your star, light up your star in the sky
this is your magic moment, when your star's shining up in the sky

Now you're in the spotlights all your dreams came true
and the hymn that is playing, playing, just for you
Look, so many people they're singing with you
singing this song full of glory for the hero, that is you

Light your star, light up your star in the sky
this is your magic moment, in this reality
Light your star, light up your star in the sky
this is your magic moment, when your star's shining up in the sky

Oh oh oh.....oh oh oh.....
Light your star, light up your star in the sky
